

Virtual DJ Pro configuration for DJControl Instinct

Installation procedure:

With Virtual DJ closed, copy/overwrite the appropriate folder in the following locations:

Mappers:

PC -> My Documents\VirtualDJ\Mappers

MAC -> Documents\VirtualDJ\Mappers

Devices:

PC -> My Documents\VirtualDJ\Devices

MAC -> Documents\VirtualDJ\Devices

The DJControl Instinct should now be automatically recognized by Virtual DJ, and selectable in the MAPPER tab of the configuration menu:

PC

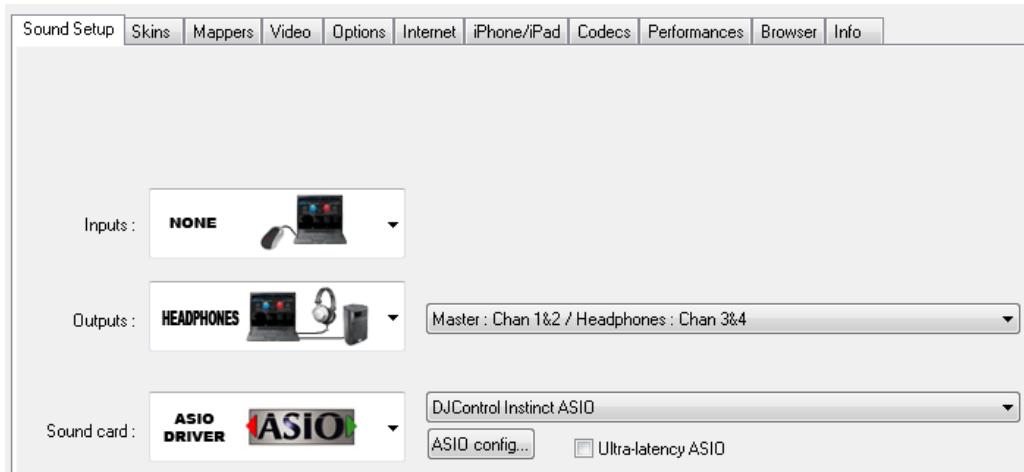

Key	Action
B3_LOOPS	loop 4
B4_LOOPS	loop 8
B1_EFFECTS	effect "FlippinDouble" active
B2_EFFECTS	effect "flanger" active
B3_EFFECTS	effect "beatgrid" active
B4_EFFECTS	effect "backspin" active

MAC

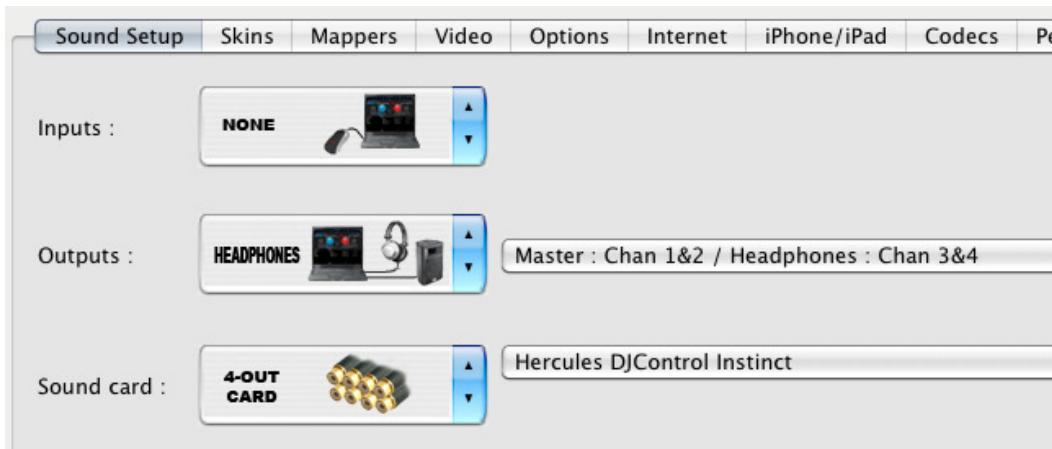

Hercules DJControl Instinct	
Key	Action
SCRATCH	deck 1 vinyl_mode & deck 2 v...
VOLUME	volume
CROSSFADER	crossfader
PLAY	play_pause

All that is left to do is to configure the audio section as follows:

PC

MAC

Your DJ Control can now be used with Virtual DJ.

Configuration de Virtual DJ Pro pour DJControl Instinct

Procédure d'installation :

Avant de lancer Virtual DJ, copiez les fichiers dans leurs emplacements respectifs:

Mappers:

PC -> **Mes Documents\VirtualDJ\Mappers**

MAC -> **Documents\VirtualDJ\Mappers**

Devices:

PC -> **Mes Documents\VirtualDJ\Devices**

MAC -> **Documents\VirtualDJ\Devices**

La DJControl Instinct devrait maintenant être reconnu automatiquement par Virtual DJ, et apparaître sous l'onglet MAPPER du menu de configuration.

PC

Sound Setup	Skins	Mappers	Video	Options	Internet	iPhone/iPad	...
		Hercules DJControl Instinct					
Key	Action						
B3_LOOPS	loop 4						
B4_LOOPS	loop 8						
B1_EFFECTS	effect "FlippinDouble" active						
B2_EFFECTS	effect "flanger" active						
B3_EFFECTS	effect "beatgrid" active						
B4_EFFECTS	effect "backspin" active						

MAC

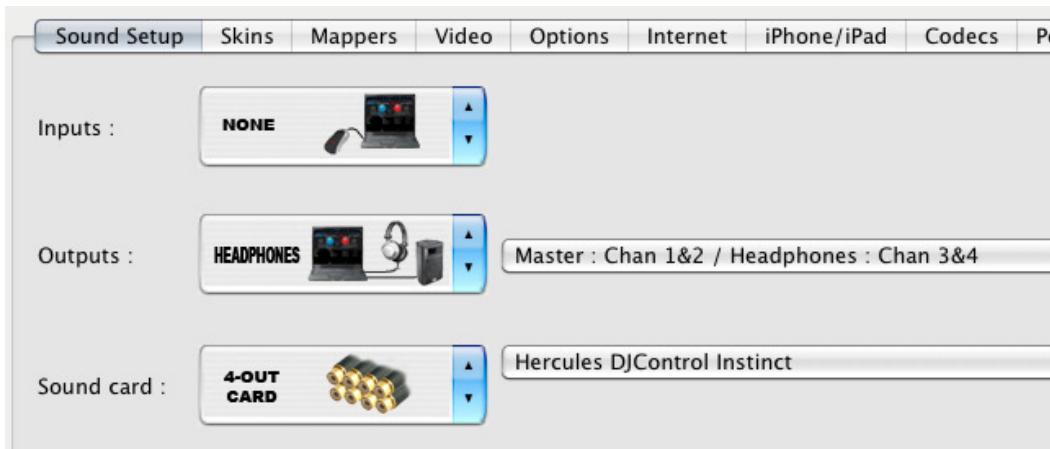

Sound Setup	Skins	Mappers	Video	Options	Internet	...
		Hercules DJControl Instinct				
Key	Action					
SCRATCH	deck 1 vinyl_mode & deck 2 v...					
VOLUME	volume					
CROSSFADER	crossfader					
PLAY	play pause					

Ne reste plus qu'à configurer la partie audio de la console comme ceci :

PC

MAC

Votre console peut maintenant être utilisée avec Virtual DJ.
